

# AINA SOFIELIA BINTI ZAIM AZRIN

Computer Science Student

011-157 11129

ainasofielia3@gmail.com

Shah Alam, Selangor

## ABOUT ME

A Computer Science student who is motivated with a strong background in software development, networking, and database systems. Currently pursuing a Bachelor's degree and seeking an internship opportunity from October 1, 2025 to March 2026. Passionate about solving real-world problems through technology, with experience in programming languages as well as tools like Android Studio, SQL, and web development frameworks. I would Like to be part of a team that works together, learn new things, and get valuable experience in the field.

## SKILLS

### Programming Languages :

- Dart
- HTML
- CSS
- Java
- SQL

### Mobile & Web Development:

- Flutter
- FlutterFlow
- Android Studio
- Firebase
- Visual Studio Code

### Database Management:

- Firebase Realtime Database
- Firestore
- MySQLDatabase Management

## LANGUAGE

- English
- Bahasa Melayu

## EDUCATION

2024 - Present

**CGPA: 3.64**

### Bachelor in Computer Science (Hons.)

Management & Science University

- **Developed** a **mental health mobile application** with Ai features with features like Ai Voice chat and real-time support.
- Used **Flutter and Firebase** to build a **cross-platform app** with real-time data storage, authentication, and chatbot integration.
- Applied **Dart programming** and managed dependencies through pubspec.yaml.
- Enhanced skills in mobile UI/UX design, backend integration, and feature optimization.

2021 - 2024  
**CGPA: 3.61**

### Diploma in Information and Technology

Management & Science University

- **Developed** a **Food Tracking Website** that included a dynamic analysis graph to visualize users' dietary patterns.
- Gained experience in UI/UX design, front-end development, and database management.
- Applied **HTML, CSS, and Java** to build responsive interfaces and implement core functionalities.
- Strengthened problem-solving and system development skills through a real-world academic project.

## EXPERIENCE

March 2023 - June 2023

### Flutter Developer & Programmer

Internship at AQwise Company

- Collaborated on the **development of a mobile application** using FlutterFlow and Dart, focusing on UI design and functionality.
- **Integrated Firebase** services for real-time database operations, authentication, and cloud storage.
- Used **Android Studio** for testing, debugging, and deployment of cross-platform features.
- **Contributed** to user interface enhancements and backend logic to improve overall app performance and user experience.

## ADDITIONAL INFORMATION

### Award /Activities :

- 5 Times Dean's List - Achieved a GPA of 3.5 or higher every semester
- Participated in 2023 INHA summer school held at INHA University
- Workshop Coordinator for "Future Skills: From Engaging Presentation to AI Proficiency"
